WORK EXPERIENCE

Software Engineer II — OfBusiness (OFB Tech Pvt Ltd) **July 2026 – Present**
Buyer Website, Backend & AI Systems *Gurugram, Haryana*

- Developed a **multi-agent engineering framework** with orchestrator-worker workflows, Claude Code/Codex peer reviews and custom MCP servers for Git and deployments, with an **estimated 40% improvement** in team delivery efficiency.
- Led the **Buyer Website backend revamp**, redesigning Spring Boot APIs, MySQL schemas and enquiry workflows. Enabled **multi-server scalability** and optimized API performance, reducing response latency by **60%**.
- Built a **custom APM framework** for distributed Java services, profiling SQL, upstream APIs and request latency. Reduced incident diagnosis from **hours to seconds**, with **90-day performance tracking** across servers.

Software Engineer I — OfBusiness (OFB Tech Pvt Ltd) **July 2024 – June 2026**
Order Admin System, Microservices & AI *Gurugram, Haryana*

- Built **VedAI 2.0**, a multilingual B2B commerce assistant using Spring AI, LLM tool calling and hybrid RAG for pricing, shipments and support, contributing to a **120% rise in total customer enquiries**.
- Architected a **multi-organization Stock Transfer and Invoicing System** for intercompany trading, real-time tracking and invoice generation, handling **Rs. 50 Cr+ in monthly stock movement**.
- Spearheaded the **Supplier Portal microservice**, enabling self-onboarding, verification and dashboard tracking through service integrations used by **10,000+ suppliers**.
- Launched a **Fraud and Risk Detection Service** monitoring procurement and credit transactions in real time, flagging **2,000+ potential cases monthly** for investigation.

Software Developer Intern — OfBusiness (OFB Tech Pvt Ltd) **January 2024 – June 2024**
Buyer App & Website *Gurugram, Haryana*

- Extended and optimized backend features for **ofbusiness.com** and the **OFB App**, supporting **500K+ registered customers** and **10K+ monthly active users**.
- Boosted **search success rate by 108%** and **click-through rate by 30%** through autocomplete, product keyword mapping and fuzzy matching.
- Improved homepage performance by **55%** through API response-time optimizations and reduced Java memory utilization.

Research Intern — Indian Institute of Science **August 2023 – December 2023**
Scheduling for Latency-Sensitive Workloads *Bengaluru, Karnataka*

- Collaborated with **IBM Research** and the **Centre for Networked Intelligence Lab** on a power-saving scheduler using heterogeneous cores on an Intel Core i9 13900K processor.
- Achieved an **80% reduction in energy-delay product** compared with Linux governors, presenting performance findings and supporting analysis to research collaborators.

Software Development Intern — Societe Generale Global Solutions **June 2023 – July 2023**
NITRO Project, CLI Tribe – Invoice API, JUnit & SonarQube *Chennai, Tamil Nadu*

Research Intern — CSIR - Central Electronics Engineering Research Institute **May 2021 – July 2021**
Texture Classification – 6 ML Models, 100K+ Images, 98% Accuracy *Chennai, Tamil Nadu*

EDUCATION

Birla Institute of Technology and Science, Pilani **August 2019 – July 2024**
Bachelor of Engineering in Computer Science and Master of Science in Economics (Dual Degree) – CGPA: 8.12

Delhi Public School Indirapuram **April 2018 – May 2019**
CBSE Class XII – 97.40%

PUBLICATIONS

- **Enhancing security through continuous biometric authentication using wearable sensors** – Elsevier, *Internet of Things* (2024)
- **Energy-minimizing workload splitting and frequency selection for guaranteed performance over heterogeneous cores** – ACM *e-Energy* (2024)

SKILLS

Programming Languages: Java 21, C++, Python, C
Backend & Architecture: Spring Boot, Microservices, Distributed Systems, System Design, Hibernate/JPA, JUnit
Databases & Performance: MySQL, Redis, RediSearch, Elasticsearch, Caffeine, JVM Profiling
AI & Developer Tools: Spring AI, LLM Tool Calling, Hybrid RAG, MCP, Claude Code, Codex, Git, Linux
